P.O. Box 2327
Arlington, VA 22202

Sir:

Transmitted herewith is a corrected Sequence Listing which comprises nucleotide and amino acid sequences that were in the above-referenced patent application as originally filed on September 27, 2001. The original Sequence Listing and diskette did not contain SEQ ID NOS.: 307 and 308. These two sequences, however, were contained in the application as filed. Applicants include a paper copy of the corrected Sequence Listing as well as a diskette which contains the computer readable form of the corrected Sequence Listing. Pursuant to 37 C.F.R. § 1.821(e), the paper copy and computer readable form, are the same.

Respectfully submitted,

Date: April 12, 2002
